

WesternGeco Sigsbee

FUGRO-LCT High-Resolution Gravity Data

FUGRO-LCT and WesternGeco are pleased to announce the availability of new high-resolution 2-D marine gravity and bathymetry data on the Sigsbee survey in the deep water Gulf of Mexico with a total line mileage of 10, 493. The data was acquired concurrently with the seismic program, acquired as a 2x4 mile grid over the Lund, Atwater and NG areas. Sigsbee lines are shown below in red.

Please contact Brian Anderson at FUGRO-LCT (713) 369-6100 for additional information.
